FROM: Donald Rumsfeld

SUBJECT: Defense HUMINT Service

I want a piece of paper from you telling me what we are doing to beef up the Defense HUMINT Service to make it a credible career service.

According to George Tenet, right now we are losing all those people to the CIA, and it is because they cannot go all the way up to General or Admiral if they are in the military. We have to fix it.

Please talk with David Chu and come back with a proposal.

Thanks.
