>Hello, I am the LAN Administrator for the NHRC/Toxicology Detachment at
>Wright Patterson AFB, Ohio. Upon reviewing my web server logs I found
>the following hits (listed below) on three different days. I traced
>this address back to the "Korean Research and Development Information
>Center". These log files are from our IIS server running our web page.
>I have yet to find anyone who can disseminate the columns that are
>underlined and bold. Is there anything you can tell me about this IP
>address or what they were trying to get at. We have nothing named on
>our servers named "acdrsrch". It seems as if they were probing for a
>certain types of OS's. Thank you very much and I would be information --
>you may provide.
