SUBJECT: INTERAGENCY COMMITTEE ON INTELLIGENCE  
(ESTABLISHED BY THE PRESIDENT JUNE 5, 1970)  
MEETING OF THE WORKING SUBCOMMITTEE June 18, 1970

CLASSIFIED BY 4425  
EXEMPT FROM GDS CATEGORY 2,3  
DATE OF DECLASSIFICATION INDEFINITE

In two previous meetings of the above-captioned committee general discussions took place and the ground work was prepared for dealing with the substance of the report. Yesterday, a third meeting was held which extended throughout the afternoon and into the early evening. Memoranda has been prepared and submitted to the Director on the previous two meetings. Yesterday, the members of the four intelligence organizations worked out the report. I received the impression that Admiral Noel Gaylor of National Security Agency may have been a moving force behind the creation of this committee. The [redacted] Program which we discontinued a few years ago was raised immediately and figured prominently in the discussion.

At the very beginning, the White House representative made it very clear to all members that the report had to be a working subcommittee report and any opinions, observations, conclusions or recommendations of individual agencies should not and could not be set forth with one exception. He said that the President did want a definitive recommendation relative to creating a group or committee which could deal with operational problems and objectives of the member agencies and present estimates, evaluations, and interpretations on the current security threats and problems resulting from the student-professorial revolutionary activities, black extremism and related security matters. He said the President is of the opinion that all government agencies involved in intelligence activities would have something to contribute and that through such a group or board authority would be exercised to better coordinate the collection of intelligence.

The men representing the Army, Air Force, Navy, National Security Agency and Defense Intelligence Agency went into great detail concerning intelligence operations, techniques, procedures, devices and et cetera, following a detailed discussion concerning the nature of the security threat to the United States today.

While all present were very friendly and cooperative to each other, nevertheless, the fact remains that in such a complex area as intelligence operations, difficult and serious issues are bound to come up concerning which there will be disagreements.

Memorandum to Mr. DeLoach  
RE: INTERAGENCY COMMITTEE ON INTELLIGENCE  
(ESTABLISHED BY THE PRESIDENT JUNE 5, 1970)  
MEETING OF THE WORKING SUBCOMMITTEE June 18, 1970

~~CONFIDENTIAL~~

In view of this it is probably fortunate that no member was permitted to make any decisions, recommendations, or conclusions, et cetera, in that the President reserves this right for himself only. Each controversial issue has been so set up in writing that the President may quickly and simply indicate whether he wants or does not want any changes made.

Contingent upon what the President decides, it is clear that there could be problems involved for the Bureau. For example, the reactivation of the [ ] Program, et cetera.

We are completing the first draft of this report now. As soon as this is done, the report with a cover memorandum explaining the various issues involved will be furnished to the Director either late today or early tomorrow morning. b1

RECOMMENDATION:

For the information of the Director.
