1959 - 1969

Introduction

The 1959-1969 Rhyming Dictionary is a cumulative machine listing of names (approximately 1,450,000) which have been incorporated into the 5x8 non-Soviet Files of Personalities during the years 1959-69. Updated by cumulative monthly supplements, it serves as a master index of names with an indication of the country or territory file in which information on a name may be located.

The columnar arrangement of the information is as follows:

- Column 1 Entry number for machine control
- Column 2 Symbol (# or +) indicating information dated prior to 1959 on a personality filed in the 3x5 file for the country or territory indicated but not listed in the Rhyming Dictionary 1945-1958. The letter M indicates information filed in the 5x8 East European Military Files.
- Column 3 Four-letter abbreviation for the country or territory file in which information on a personality is filed.
- Column 4 Surname
- Column 5 Given name(s) and/or initial(s)

The expansion of each four-letter abbreviation used in Column 3 is listed after the introduction.

The Rhyming Dictionary consists of two parts, which are available for use in the International Branch, P2221:

- Part I - Forward Alphabetical Sort of Surname Column
- Part II - Reverse Alphabetical Sort of Surname Column
