EMBTEL 406.

Prime Minister has given me informal written statement as his personal answer to my inquiry November 13. It notes that United States Government considers no problem under 1951 agreement of possibly storing in Greenland "supplies of munition of a special kind" and that in conversation I did "not submit any concrete plan as to such possible storing" or "ask questions as to attitude of Danish Government, and concludes that Prime Minister does not think my remarks give rise to any comments from his side.

In my opinion we have now fulfilled our obligation to Prime Minister.

He said he had only one copy of statement which he would keep in his personal file and requested me to consider my copy purely personal. He was adamant that there should be no publicity of any kind now or later and I particularly urge that every effort be made to avoid leak, which could be highly damaging here both to Danish Government and to our whole defense relationship with Denmark.
