MEMORANDUM FOR THE SECRETARY OF DEFENSE

Subject: SAC Airborne Alert Indoctrination Program (U)

CINCSAC has been authorized to make certain minor modification to Airborne Alert Routes to enable SAC aircraft to provide a 24-hour airborne monitor capability of the Thule (BMEWS) AF area. The route changes will become effective on or about 15 August 1961 after appropriate service-to-service coordination between CINCSAC and the Canadians has been completed. No degradation of target coverage will result from the modification.
